#### Major events during June 2017

- Central Bank raised LKR 90 Billion by issuing treasury bills and LKR 45 Billion by issuing treasury bonds.
- Central Bank policy rates play a key role in determining the direction and level of market interest rates. The Central Bank maintained policy rates unchanged during the month, a reflection of its intent.
- Short term interest rates decreased over the month. For example the benchmark 364-day Treasury bill rate decreased to 10.47% from the previous month 10.73%.
- Our opinion is that policymakers would endeavour to maintain interest rates at their current levels over the foreseeable future.
