Market update: Interest rates

For the month of May 2017

We use the 364 day T- Bill as an indicator of how interest rates move

364-day T-bill : Since 01 Jan 2011

Note: past performance is not an indication of future performance

364-day T-bill : Since 01 Jan 2017

Note: past performance is not an indication of future performance

Major events during May 2017

- Central Bank raised Rs. 143 Billion by issuing treasury bills and Rs. 90 Billion by issuing treasury bonds.
- Central Bank policy rates play a key role in determining direction and level of market interest rates. The Central Bank maintained policy rates unchanged during the month.
- Short term interest rates decreased over the month. For example the 364-day Treasury bill rate decreased to 10.73% from the previous months 11.02%.
- Our opinion is that interest rates will remain volatile in the near future.

Inflation : Since 01 Jan 2015

Note: past performance is not an indication of future performance

Market update: Stock market For the month of May 2017

ASPI: Since 01 Jan 2010

Note: past performance is not an indication of future performance
