- SRI LANKA TELECOM
- CEYLON TOBACCO COMPANY PLC
- LANKA IOC PLC
- BROWNS INVESTMENTS PLC
- DIALOG AXIATA PLC
- DISTILLERIES COMPANY OF SRI LANKA PLC

### Highlights of the month

- The ASPI and S&P SL20 slightly increased for the month of January 2023 by 4.42% and 4.89% respectively.
- Net foreign flows for the month amounted to LKR 0.413 Bn of inflows, a decrease from the prior period.
- The market has witnessed increased turnover for the period compared to the prior period.

 **Investment strategy:** AIA Sri Lanka maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines as set out in the investment policy. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

### Fixed income outlook

- Overall interest rates recorded a decline, especially on the shorter end of the yield curve during the month of January 2023. The benchmark 364-day Treasury bill rate declined to 27.72% as at 1<sup>st</sup> February 2023 from 29.27% recorded at the beginning of the year.
- The Monetary Board decided to maintain the policy rates at current levels, mainly to ensure that monetary conditions remain sufficiently tight to rein in inflationary pressures. Such tight monetary conditions, together with the tight fiscal policy, are expected to reduce inflationary pressures in 2023.
- Inflation as measured by the CCPI (2013=100) reduced to 54.2% on a year on year basis in January 2023 from 57.2% in December 2022. Overnight market liquidity levels improved as a result of the term auctions held by the Central Bank to improve the liquidity levels in the system. However, the Central bank holding of Government Securities remained high at LKR 2.5 Trillion.
- Despite the improvement in the overall liquidity levels and the higher activity levels witnessed in primary auctions, the prevailing weak macroeconomic conditions may continue to negatively impact interest rates in 1Q 2023.

### Equity outlook

- The All Share Price Index (ASPI) and S&P SL 20 Index (S&P SL), gained 4.42% and 4.89% respectively, during the month of January 2023 as the investor sentiment improved on renewed expectation of obtaining the IMF board level approval on the backdrop of receiving India's assurances on debt restructuring. Net foreign purchases exceeded LKR 400 million during January 2023.
- Despite the improved sentiment, we expect the market to be range bound through Q1 2023 as the weak macroeconomic conditions, debt restructuring uncertainties and contractionary fiscal policy measures are expected pose challenges to corporate earnings in FY2023.

## FREQUENTLY ASKED QUESTIONS

### Where are AIA Unit Linked Funds invested?

The Unit Linked funds are invested in instruments specified in the policy documents i.e. government securities, debt securities and money market investments such as fixed deposits, etc, and in shares listed on the Colombo Stock Exchange. These investments are made within the parameters provided in the policy documents, in order to achieve the investment objective of each fund.

- **Equities:** Investment in shares listed on the Colombo Stock Exchange.
- **Debt Securities:** Investments in Treasury instruments, Corporate Debt instruments, repurchase agreements of Treasury instruments and Corporate Debt instruments of longer maturity tenor than those classified as Money Market investments.
- **Money Market investments:** Funds held as Corporate Debt instruments, overnight repurchase agreements of Treasury instruments, Corporate Debt instruments with a tenor of one day, investments in Treasury instruments and cash in bank current accounts.

Treasury instruments refers to instruments such as Treasury Bills and Treasury Bonds issued by the government of Sri Lanka. Corporate debt refers to debt instruments issued by financial institutions and companies.

### How does AIA manage Unit Linked funds?

AIA maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines, as set out in the Company's investment policy. The investments of each fund are carried out in line with the investment objectives of the respective fund. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

### Why do unit prices of the Growth & Balanced Funds fluctuate in comparison to the other Unit Linked Funds?

The prices of all unit linked funds move in tandem with the price movements or market values of their underlying investments. The Growth & Balanced funds invest in shares listed on the Colombo Stock Exchange. As prices of shares can be volatile at times, the unit prices of Growth & Balanced funds too can move higher or lower in tandem with these movements in share prices.

### Is the All Share Price Index (ASPI) or S&P20 movement comparable with AIA Growth & Balanced Funds Performance?

The Growth and Balance fund performance may differ from the performances of the ASPI and the S&P SL 20 stock indices due to the fund portfolios holding different stocks and different proportions of stocks when compared to those used in the computation of the indices. The ASPI measures the movement of share prices of all listed companies on the Colombo Stock Exchange based on market capitalization and the S&P SL 20 measures the movement of share prices of 20 of the leading companies selected and rebased on certain criteria including market capitalisation.

## ▪ What are the Investment Strategies mentioned in the Policy Document\* ?

Depending on the policy you have purchased, at the date of commencement the policy owner selects the investment strategy out of the four available; namely Aggressive, Moderate, Cautious and Advanced. Aggressive, Moderate and Cautious strategies have their funds allocated and switched at predetermined milestones depending on the policy term. Policy owners can switch fund strategies on written request during the policy period subject to conditions. Policy owners with Advanced investment strategy are responsible for determining the allocation and switching throughout the lifetime of the policy.

## ▪ What are Unit switches and amendment of Regular Premium Allocation Proportions?

Depending on the policy you have purchased, your Investment Linked Long Term Insurance Policy allows you to be in control of your investments. Options such as Unit switches\* and amendment of Regular Premium Allocation Proportions\* may be available to you, so that you have total control over your long term investment.

- **Unit switches:** If you request to switch units from one unit linked fund to another, the Company will cancel units of equal amount from the fund from which the units are to be switched from at the Unit price of that fund prevailing on the day and after deduction of switching charge, if any, and the funds so generated will be used to create units in the fund in which the amount is to be switched to at the Unit price of that fund prevailing on the day. Note that the unit switches are not permitted into or out of the Protected Fund and Stable Money Market Fund.
- **Amendment of Regular Premium Allocation Proportions:** At the written request of the Policy Owner, the Company will amend the Allocation Proportion whereafter the previous Allocation Proportion will become ineffective, and the amended Allocation Proportion will be applicable to all future Basic Premiums received from the date of the Company's acceptance of the request. Note that the amendment of allocation proportions is not permitted into or out of the Stable Money Market Fund.

## ▪ How often can Unit switches and Amendment of Allocation Proportions be executed?

- There is no limitation on frequency of Unit switches\*
- The Company will only allow two (2) requests for Amendment of the Allocation Proportion within any Policy Year\*
- The relevant applicable charges will be applied as stipulated in the Policy Document
